PROFESSIONAL EXPERIENCE

Projects:

Gfox Logistics

Gfox Logistics is a platform that offers a streamlined solution for renting trailers and trucks, considering factors such as cost-effectiveness and cargo capacity. It affords users the versatility to access detailed information pertaining to individual trucks and trailers.

Tools: React, CSS3, Firebase

Resume Builder

An app designed to simplify the process of composing, viewing, modifying, and removing resume content. The format of the resume is automatically generated based on the data provided by the user through dedicated forms for each resume section.

Tools: HTML5, CSS3, JavaScript and React

Quizzical

The application retrieves data from the API according to the user's chosen category and level of complexity. Subsequently, the user has the opportunity to undertake a randomized test, and subsequently receive a comprehensive score along with a presentation of the accurate responses.

Tools: HTML5, CSS3, JavaScript, and ReactJS

Efork Library

The application furnishes the user with an interface for generating and maintaining a catalog of books, along with the ability to modify their status as either read or pending.

Tools: HTML5, CSS3, JavaScript

EDUCATION

Scrimba

Front-End Career Path: Front-End Development

Jan 2023- Aug 2023

Over the span of six months, I participated in a comprehensive and rigorous course that centered on the React library and APIs. I completed multiple solo projects that shaped some of the highlighted projects in my portfolio. This experience enriched my understanding of API data fetching, and rendering.

Holberton School

Software Development: Full Stack Web Development

Aug 2022-Jul 2023

I completed a comprehensive one-year full-stack web development program covering essential building blocks, tools, and frameworks. Throughout the program, I gained hands-on experience with a diverse array of web technologies, such as React, Typescript, scripting with Bash and Python, Node, and MySQL.

Strathmore University

Bachelor of Commerce: Accounting and Finance

Sep 2016 - Jun 2019
