## Skills

| | | |
|---|---|---|
| JavaScript | React | Node |
| Restful APIs | HTML5 & CSS3 | SQL |

## Experience

**Projects:**

**Resume Builder**                                                                 View Project

An application that makes it easier for the user to create, read, update, and delete content, and also the final version.  The structure of the resume is auto-generated depending on the information submitted by the user on the corresponding forms for each section.

Tools: HTML5, CSS3, JavaScript and Reactjs

**Quizzical**                                                                          View Project

The application fetches data from the API depending on the category and level of difficulty selected by the user.  The application tests the user's general knowledge and provides a final score including a display of the correct answers.

Tools: HTML5, CSS3, JavaScript, and ReactJS

**Efork Library**                                                                     View Project

The application provides the user with an interface to create and store a list of books and update the status as Read or otherwise.

Tools: HTML5, CSS3, JavaScript

## Education

Scrimba
*Front-End Career Path: Front-End Development*                          *Jan 2023-* Aug 2023

Over the span of six months, I participated in a comprehensive and rigorous course that centered on the React library and APIs. This experience enriched my understanding of API architecture, data fetching, and rendering.

Holberton School
*Software Development: Full Stack Web Development*                      Aug 2022-Jul 2023

I completed a comprehensive one-year program focused on web application development, which covered essential building blocks, tools, and frameworks. Throughout the program, Igained hands-on experience with a diverse array of web technologies, such as React, TypeScript, scripting with Bash and Python, HTML5, and CSS3.

Strathmore University
*Bachelor of Commerce: Accounting and Finance*                          *Sep 2016 - Jun 2019*
